### MEMORY RESTORED BY SAVAGE BLOW

William Ball, Missing for Three Years, Returns Home.

A severe blow on the head, inflicted by a Spanish officer, in Refia, Morocco, when he attempted to interfere in the punishment of one of his comrades, is responsible for the return of memory to William Ball, of Port Hope, Company Quartermaster-Sergeant in the Canadian Forestry Corps. For almost three years nothing has been known of Ball's whereabouts and a vigorous search made by the C.W.V.A. on behalf of his wife, failed to locate him.

In April, 1919, while in the service of the Y.M.C.A. in Bordeaux, France, Ball was attacked and robbed, and his skull was so severely fractured that he lost all recollection of his home and family. He was cared for in a French hospital until his health permitted him to join the crew of a vessel trading to German ports. In Hamburg he engaged in a revolution, fighting for the Government side. In the spring of 1920, Ball landed in the United States and later sailed for Spain and Morocco on a recruiting expedition for the Spanish Legion. This venture was anything but a success, as the men were poorly paid, badly housed and brutally treated by Spanish officers. Ball declared that members of the Legion were tied up until their flesh turned black from the stonage circulation, or were struck across the face for the most trivial offences, and that a favorite punishment was nothing but a 60-pound sack of rocks on a man's back with hay and wire. Finding one of his friends tied up one day, Ball undertook to cut him loose, and in the argument which followed, he received a blow which restored his memory. His life was

spared owing to a mutiny in the Legion and he was finally released, repatriated to London, and a few days ago landed at St. John, N.B., whence he returned to his home in Port Hope.

## KING CONSIDERS RE-ESTABLISHING A WHEAT BOARD

Ottawa, Feb. 22.—(By Canadian Press)—While considering the proposal to have a wheat board, the King is reported to be in favor of re-establishing a Canadian wheat board at the hands of Premier King and his colleagues.

In the west, the feeling is stated to be, at the present time, in favor of the re-establishment of such a board and the cabinet is expected to reach a decision on the matter between now and the time the house meets.

Together with the question of a wheat board the matter of continuing the grain trade inquiry is understood to be under consideration. One of the suggestions which has been put forward, it is understood, is that the grain inquiry shall continue but that it will be carried on by a reconstitution board.

### AMATEUR SEED SOWING

The following excellent address was delivered by T. S. Miller at a recent meeting of the Horticultural Society:

Seed sowing, to my mind, is one of the most interesting and fascinating phases of gardening, especially if one is sowing seeds of some plant that one has not tried before. Seed sowing requires time and patience, particularly if one sows all seeds by hand, and if the best results are to be obtained.

The two most essential things if one wishes to succeed are, first, get good reliable seeds of old strains, genuine test; and, secondly, the soil must be sweet and in the right condition, neither too wet nor too dry.

The soil when ready for sowing should be in a friable condition, neither too wet nor too dry. A good way to tell when the soil is in the right condition is to take a handful and grip it firmly. On loosening the hand, if it falls out like sand it is too dry; if it is sticky, it is too wet; but if it clings slightly, it is just about right and sowing may proceed.

The seeds may be sown either broadcast or in rows, as the resultants are much easier to transplant than when sown broadcast. A great number of seeds, both flower and vegetable, should be sown in a warm frame, amongst these may be mentioned Asters, Snapdragons, Stocks, Phlox Drummondii, Marigolds, both French and African, Petunias, Verbena, Zinnias, Mimulus, Salpiglossis, Schizanthus, Nemata, Annual Chrysanthemums, Dahlias, etc.

The following vegetables may also be sown in the frame: Cabbage, Cauliflower, Brussels Sprouts, Celery, Lettuce, Onions, Parsley, Kale, Scotch and Radishes, etc.

In addition to the foregoing there are quite a number of flower seeds which may be sown outside where they are wanted to bloom. The following are a few: Alyssum, Calendula or Scotch Marigold, Candytuft, Catnip, Chard, Eschscholzia, Galium, Geranium, Godetia, Annual Gypsophylla, Jacobaea, Linaria, Lupinus, Malope Nasturtium, Nicotiana, Nemophila, Poppy, Sunflower, and Virginia Stocks, etc.

Then there are the following perennials, seed of which should be sown in beds and transplanted to their flowering quarters the following spring: Sweet William, Anemone, Polyanthus, Gypsophylla, Pinks, Perennial Galliardia, Delphinium, Shasta Daisies and Japanese Single Chrysanthemums and Canterbury Bells, Perennial Poppies and Delais.

The seeds to be sown in the frame or hot bed may either be sown in boxes or straight into soil placed directly on the hotbed. In either case I would sow in rows, and the soil to use is two-thirds garden loam, one-third manure from an old spent hotbed, or least mould, and about one-fifth sharp sand, mixed together, through a one-quarter inch sieve.

In sowing care should be taken not to sow too deeply, or a good many seeds will not germinate. A good plan is to cover the seeds about twice their own depth, whilst very small seeds should be sown on the top and a light sprinkling of sand shaken over them. A good way to sow is to prepare a box or boxes full of soil and give a good watering. Let them drain for about an hour, then sow your seeds and sprinkle a little sand over them with your fingers. After sowing seeds should be shaded until germination takes place.

Vegetable seeds, such as carrots, beets, turnips, parsnips, lettuce, radish, etc., are usually sown outside in rows, and should be sown about three-quarters of an inch deep whilst peas, beans, corn, etc., are better if sown two inches deep. Hardy annuals sown outside should be sown about half an inch deep, and all seeds, both flower and vegetable, germinate better if pressed into the soil.

All plants from seeds sown in frames or beds should be transplanted when about four leaves have formed to other boxes or beds, and placed one and a half inches to two inches apart. In this way you get more fibrous roots and thereby more food channels for the plant and thus a

## THE HORRORS OF INDIGESTION

Relieved by "Fruit-a-tives"

### the Fruit Medicine

Indigestion, Weak Digestion, or partial digestion of food, is one of the most serious of present-day complaints—because it is responsible for many serious troubles.

Those who suffer with Indigestion, almost invariably are troubled with Rheumatism, Fatigue of the Heart, Sleeplessness and excessive Nervousness.

"Fruit-a-tives" will always relieve Indigestion because these tablets stimulate the stomach muscles, increase the flow of the digestive juices and correct Constipation, which usually accompanies Indigestion.

600 a box, 6 for \$2.50, trial size 25c.

At druggists or sent postpaid by Fruit-a-tives Limited, Ottawa.

stronger plant.

All plants raised in frames must be hardened off before being planted in the garden, otherwise they will suffer if the weather changes.

There is one plant which resists transplanting, and that is Sweet Pea. I believe the best way to do it, if one wants to sow in a frame, would be to sow one seed in a small flower pot, but as this is next to impossible where a large number are grown, the next best thing to do is to sow in boxes about an inch apart, and when the plants get about three inches high, place in a bolt frame for about two weeks and gradually harden them off, and then transplant to the garden, where you want them to bloom. Sweet Peas may also be sown right in the open, spacing the seeds from three to six inches apart.

Sweet Peas started in frames flower a few days earlier than those sown directly outside, and give, in my opinion, much finer blooms, especially if the sweet flowers are picked off as they come.

In conclusion, I would like to mention that whichever way you sow your seeds, never let them become dry, nor don't keep them saturated, but keep them evenly moist, but when you do water them give a good watering, enough to thoroughly moisten the whole soil, and then leave them nearly dry before watering again.

I believe there are more failures from sowing too deeply and overwatering than from any other cause.

### THE RULE OF THE GAME

"Tell me something that girls can do better than boys," said a supervisor in one of Boston's public schools.

"They can cook," was one answer. "They can sew," was another. "Two girls can stay any night at each other's house longer than two boys can," was a third answer, given by a freckled little chap with merry eyes.

The girls had to admit this, after which the teacher asked the boys to explain the reason why they were so sure of their answer.

"Well, you see, perhaps two boys who have been quarrelling, and the captain says to 'em, 'You two fellows, settle your differences, or you get out.' Then they make up. Even if you have been fighting, you have to make hands when the fight is over."

"Is that the rule of the game?" was the monitor's question.

"Yes," the boys assented. "Always."

Now, girls, this principle is big enough to fit everybody—small child or grown-up. There is no such thing as being alone in this world. Whoever you are, whatever you are doing, you will have to play or work with a lot, and no game or employment can succeed unless everyone in it is ready in case of disagreement to shake hands and "make up."

Girls have many virtues that boys may well envy, but one masculine quality of common sense good fellowship is one that all girls should strive to imitate.

### KEEP STILL

Keep still. When trouble is brewing, keep still. When slanders are getting on your legs, keep still. When your feelings are hurt, keep still. Tell your lover from your excitement, at any rate. Things look differently through an unquiet eye.

In a commotion, once I wrote a letter and sent it, and wished I had not.

In my later years I had another commotion, and wrote a long letter; but life and death is a little sense into me, and I kept that letter in my pocket against the day when I could look it over without agitation and without tears.

I was glad I did. Less and less it seemed necessary to end it. I was not sure it would do any hurt, but in my doubtfulness I leaned to reticence, and eventually it was destroyed.

Time works wonders. Wait till you can speak calmly, and then you will not need to speak, maybe. Silence is the most massive thing conceivable, sometimes. It is strength, in very grandeur.

## RED CROSS WORK

The continued cold weather has increased the demand for clothing for the poor, and the Alberta Division Canadian Red Cross, with the result that the organization is making strenuous efforts to meet the situation. From many districts come reports that much relief will be needed before spring.

The fund which is being raised to help out with this work gains slowly but surely. The total of \$10,450.40 have been received at the Provincial Headquarters of the Red Cross, O'Sullivan Block, Calgary.

Donations may be made to the nearest Red Cross unit or direct to the Provincial Headquarters. The following acknowledgements are made:

Previously acknowledged	\$1474.40
Baird W.A.S.	2.00
Baltimore Red Cross	50.00
Argyle W.L.	25.00
C.S. Smith, Nanaimo	10.00
Zella U.F.A.	35.00
Crossfield Red Cross	10.00
Total	\$1010.40

## NEW BOY SCOUT ORGANIZATION

Mr. H. B. Callender represented the local Troop at the general meeting of the Provincial Association of Boy Scouts held in Calgary on Tuesday evening, February 21. At this meeting it was decided to divide the province into two territories with headquarters at Calgary and Edmonton, respectively.

which it described as business activity and increasing production; extensive expansion and speculation, followed hitherto by panic and forced liquidation; a long period of slow liquidation, business depression and stagnation; and then a revival.

A further indication of improved business conditions is reported from New York, where twelve countries, big and little, are in the market for new long term funds. New York apparently is not going to have a clear field because London investors are also planning to tender on some of the offerings made by foreign countries.

## BUSINESS ON THE MEND SAYS U.S.F.R. BOARD

Report Just Issued Says That Worst Is Over and Decided Improvement Is in Sight.

Washington, Feb. 21.—According to the annual report of the United States Federal Reserve Board, business throughout the United States is showing a decided improvement. "There are those," the report says, "who believe that the beginning of a business revival is not far distant. When it does definitely set in, it will be followed in due course by a new era of prosperity."

Business, in one of its "long swings" from prosperity, the report said, has followed its usual rotation

## BANFF WINTER CARNIVAL

(1) Indian Tepees arranged down the Main Street at Banff. (2) The Ski Slide at Banff.

In setting of snow-capped mountains and a valley carpeted with heart of the Rockies, Banff, Alberta, Vancouver to Montreal, was at its best for the sixth annual winter carnival. The carnival was everywhere in evidence in the brilliant costumes in their brilliant coloring, the fire, the magnificent feet, the bright aviators, sporting toques, toboggan costumes, sking suits, and uniforms in good old but faded colors, Indians in gorgeous beaded costumes—the north, south, east and west all mingling in a happy companionship in God's great outdoors.

Looking up Tunnel mountain, it seemed that one of the most exhilarating of winter sports was planned for extra thrills. The slide is constructed on the natural slope of Tunnel mountain and runs directly down Cariboo street, a distance of about half a mile marked all the way by flags fluttering in the breeze, giving a bright note of color to the landscape.

Banff has become one of the most prominent ski-centres on the continent. The spectacular ski-slope of Tunnel mountain was the scene of some important events in which hundreds of international fame took part.

Snow shoe parties were one of the popular forms of sport and hikes to the various favorite spots with

bonfire lunches in the mountain cabins were organized by the veteran snow-shoers. Mr. N. H. Sisson, one and all declared that conditions were never better for this form of sport and it gave the visitors an exceptional opportunity of enjoying the beauty of the mountains.

Sliding Canada's crowning winter sport, formed important events in the large open air rink on the Bow river, with old Mount Rundle frowning down on the merry makers. Hockey enthusiasts had a week of sport. Teams from Carleton Place, Cannore, Bankhead, Calgary and Vancouver took part in the games.

A unique feature was the Parking contest in which several "old Stoney Indian reserve took part. Miss Phoebe Senkler, of Vancouver, Queen of the Carnival, was a guest of the association and took a prominent part in the festivities.

The variety of attractions kept everyone in the red carnival spirit—the wood chopping contests, the whippet races, the sleigh dog races, the trap shooting, the Indian powwow when the Indians, old and young, were out in great splendor, kept carnival guests busy. It all led one to declare that in summer or winter robes, Banff, rich in color and conditions, is one of the world's most glorious natural playgrounds.

# EXAMINER'S REVIEW OF 30,000 IN TORONTO PROVINCIAL MARKETS

Calgary, February 22nd.

Beef—Light receipts at Calgary, and a firm market on the good steers; choice heavy, \$7 to \$7.25; butchers, \$6.50 to \$7; good, \$6.25; medium, \$5.75 to \$6.25; common, \$5.25 to \$5.75. Choice cows, \$4.50 to \$5; good, \$4.25 to \$4.75; medium, \$3.75 to \$4.25; common, \$3.25 to \$3.75. Canner's, \$1 to \$1.75. Few choice hogs bring up to \$5.25. Bulls scarce, with most of the good ones at \$2.75, and a top sale at \$3.25. Few calves, with tops \$2.25; common, \$2.00 to \$2.25. Feeders and Stockers—Good feeders, \$3.75 to \$4.25; stockers, \$3.25 to \$3.75. Stocker hogs, \$2.25 to \$3.25. Stocker cows, \$1 to \$1.75. Beef—Market not quite so keen at Edmonton. Choice heavy does easier at \$6 to \$6.50; choice light, \$5.50 to \$6; good, \$5 to \$5.25; medium, \$4.50 to \$5; common, \$4 to \$4.50. Choice cows, \$4 to \$4.50; good, \$3.50 to \$4; medium, \$3.25 to \$3.75; common, \$2.75 to \$3.25. Stocker hogs, \$2.25 to \$3.25. Stocker cows, \$1 to \$1.75. Choice hogs up to \$5.25, and plain down to \$3.75. Bulls unchanged at \$2 to \$2.50. Calves selling well with tops \$5 to \$5.25; common, \$3 to \$4.50. Feeders and Stockers—Not much trading; prices unchanged at \$3.25 to \$4.50 for best steers, and stockers \$3 to \$3.75. Stocker hogs, \$2.25 to \$3.25. Stocker cows, \$1 to \$1.75. Hogs—Calgary market gained steadily since last week, with sales yesterday at \$12.50. Today's arrivals sold at \$12.75.

Hogs—Local buying and outside shipping keeps prices at Edmonton high, with sales on Wednesday at \$12.50 to \$12.75.

Sheep—Some very nice lambs coming in to Calgary, and sell at \$10 and down to \$8.50; wethers, \$6.50 to \$7.50; ewes, \$4 to \$5.50.

Sheep—Demand steady on sheep, with arrivals light. Choice lambs, \$8 to \$9; wethers from \$7.50 down.

Grain—Improvement is still shown in wheat and other grains, with new vessels reached for the first time. Exporters, though holding back on some of the advances, continue to pay on any rebates. Germany has started buying Canadian and Argentine wheat. Condition of U.S. crop still bad. Many farmers who are satisfied with recent advances in wheat are selling now.

Produce—Unfavorable weather has made business at Calgary slow. Eggs—No local fresh eggs coming in, probably worth 45c, but nominal quotation is 40c. Washington and B. C. supply large, and trying to sell us now. Creamery Butter—Unchanged at 32c for cartons, some New Zealand to arrive at coast soon. Dairy Butter—Receipts light, no improvement in price. Butterfat—22c; on grade, 18c to 17c. Butterfat—Unchanged, receipts light; no article about pollution in another column of The Examiner. Poultry—Market quiet; live chickens, 14c to 15c; fowl, 12c to 13c; ducks, 12c; turkeys very scarce, and dealers not anxious for them; market quoting dressed chickens, 24c to 26c; fowl, 20c to 22c; ducks and geese, 20c to 22c; turkeys, 22c to 25c. Potatoes—No demand; worth 12c to 13c, delivered Calgary.

Butterfat—Not much increase in volume shown in Edmonton territory; prices unchanged. Creamery Butter—Unchanged, with prints 35c; cartons, 36c; very little surplus being made; storage all cleaned up. Dairy Butter—No market and winter stocks still on hand; no quotations being sent out. Cheese—Local stocks still large, but moving rapidly.

Weather conditions have affected receipts locally, but when break comes as rush may be expected; but at present market is in flurry with quotations to the farmers at 40c. Poultry—Practically nothing done, which has stimulated storage holdings, some of which is reported sold for United Kingdom export.

Hay—Feed being used up very freely; not much buying yet; dealers paying \$12 to \$13 on upland, and \$16 to \$18 on timothy to farmers at country points.

Furs—Montreal auction prices indicate market is high enough, and on some pelts, such as beaver, mink, and muskrat, prices are lower than anticipated. Western dealers have not revised prices until well word is received of the tone of the auction at the conclusion.

Hides—No improvement in market or prospects; green frozen and salted hides 2c to 2c; very little demand from tanners.

Address:  
P.O. Box 374 of Phone 326

# CANADIAN PACIFIC C.P.R. TRAIN SERVICE

**PRYOR,**  
District Passenger Agent, Calgary.

# USE CANDLES

Toronto, February 22.—Midnight tonight found the streets of the city with the upper hand in Southern Ontario with the public groping and pretty much in the dark.

The power of the Toronto and Niagara Transmission wires at a point near Burlington early in the evening had not been repaired at midnight, and as a result Toronto was partly in darkness and thirty thousand families were left by candle light.

At break in the hydro commission trunk line to eastern Ontario, put services in London and other cities and towns out of commission for most of the day but current was restored about midnight. Transmission lines running out of the big plants at Niagara Falls and feeding the eastern Ontario hydro zone are reported to be damaged in three inches of ice and the cables of the lines concerned express themselves as positively alarmed at weather conditions.

The great load of ice has broken the line of many trunks and the staffs out on the job of trying to restore connection have no expectation, it is said, of repairing all the breaks for many hours.

About midnight, Toronto transportation engineers succeeded in contracting the street cars and the hydro commission current, and by switching on to a section of the city line, succeeded in moving the cars. The 1,500 cars that had been stalled since the break at five o'clock this evening. An effort will be made to operate a few cars by hydro current of which there is but a limited quantity available.

The Toronto Globe succeeded in running typesetting machines by hydro current and will have tomorrow morning at almost their usual size, while the Mail and Empire secured the use of the Evening Telegram plant, which has hydro connection, and in that way were able to set up their Thursday morning edition somewhat curtailed in size.

The weatherman promises rain or snow for tomorrow, and with the temperature slightly lower tonight, the outlook is not reassuring for the electric service.

The storm interfered with telegraph and telephone services during the day, but after midnight there was considerable improvement. Only meagre reports were available at midnight from rural points.

**PASSENGERS DIE AS U.S. AIRSHIP ROMA EXPLODES**

Norfolk, Va., February 21.—The army dirigible Roma, purchased by the United States government from Italy, and only recently commissioned, was destroyed by an explosion today while operating over the Hampton Roads naval base. The big air craft, believed to be carrying a number of passengers, landed in flames near the naval base. Soon after the fall, four men were taken off alive. The heat of the flames was so intense that those near where the craft fell were unable to approach. The four men rescued were badly burned. The Roma, which was the largest semi-rigid airship in the world, was sailing in a southeasterly direction when, according to observers, she suddenly burst into flames and fell like a comet to the earth. The explosion occurred shortly after five o'clock. The craft was Italian-built and estimated to be worth \$1,250,000.

The airship was of 1,200,000 cubic feet capacity, 410 feet long, 32 feet wide and 68 feet high. It was originally equipped with six 21-cylinder engines of 400 horsepower each, giving an estimated speed of 80 miles an hour, and a cruising radius at full speed of 3,300 miles.

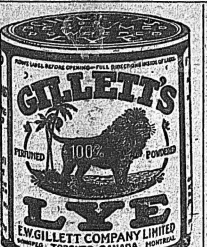

The great cry today is "respect the law." How can we? We can obey it, but we cannot respect it. It is a cruel, hard, unreasonable, unfeeling law, but a sort of a slave driver, but we cannot respect it. It is a cruel, hard, unreasonable, unfeeling law, but a sort of a slave driver, but we cannot respect it.

**SEED PRODUCTION IN ALBERTA**

According to Dominion Experimental experience at Lethbridge and Lacombe, Alberta offers splendid opportunities for seed production. In 1916 a hundred bushels of six-rowed barley was imported from the state of Idaho, where it had been grown with improvement for a number of years. Sown on a twenty-acre patch in Southern Alberta, it yielded 75 bushels to the acre, but at Lethbridge and Lacombe the high yields of 100 and 114 bushels respectively were obtained. A well-served United States traveler testifies that in his opinion seed of exceptional quality could be grown in Alberta, including seed wheat, oats, barley, peas, clover, alfalfa, vetch, clover, red clover timothy, bromus grass, western rye, and of many kinds of vegetables.

It is a fact not generally known that for years past purchasers of seed oats from the middle states have made Alberta their buying ground. In the spring of last year seven seed centres for the multiplication and distribution of pure seed were established in Alberta, and have proved satisfactory. In the irrigated districts of Southern Alberta, gratifying success has been achieved in the growing of seed, especially that alfalfa, of which the yield runs fourteen bushels to the acre.

The huge factory of the Thornton Rubber company at Calgary was destroyed by fire on Wednesday with a loss of over \$50,000.

TO THE EDITOR OF THE NEWS.

If we believe the Bible is the Word of God, then we believe Jesus made it, and that Jesus made it for the use of men. When Jesus and His disciples arrived at the marriage, they wanted food. There was no wine, and Jesus made wine.

A prohibitionist, writing in the Montreal Witness, said: "If the liquor traffic can be tolerated up by God, Christ and the Bible, then I would consider such a God too immoral to merit the worship of a decent man."

All prohibitionists may not say that, but they must think it; their actions prove that they do. They throw the Bible aside, they are destroying it, and coming to fall and imposing enormous fines for doing just what our Saviour did for making wine. Jesus made wine, it was a miracle, if we make wine, it is a crime. Prohibitionists have wrought the change. They say Christ was wrong, we are right. Everyone is free to put their faith in whom they choose. As the Word of God is the Word of God, it is not for us, and we are making crime of it.

The great cry today is "respect the law." How can we? We can obey it, but we cannot respect it. It is a cruel, hard, unreasonable, unfeeling law, but a sort of a slave driver, but we cannot respect it.

**SAYS FRANCE CANNOT REPAY LOANS OF U. S.**

Paris Expert Declares "Country Can't Pay One Cent."

London, February 21.—Considerable surprise is expressed in London this morning at the very outspoken speech of Mr. Lecheur, minister of liberated territories under Brand, and regarded as one of the greatest living financial authorities in Europe. In an address before the Industrial Association of Lyons which controls the great Lyons fair, he declared:

"I have no hesitation in saying that France can never pay one cent to America. It is quite impossible for her to pay tens of millions of francs in addition to interest. America has possessed the world's gold and

France cannot pay America in goods."

**CONSORTIUM GATHERS**

Meanwhile there are gathering today in London delegates to the international consortium which has set itself the task of organizing a gigantic corporation to finance the trade of those countries in Europe where change and other conditions practically have caused paralysis.

These delegates are not government officials and must not be confused with the gathering that has been postponed until the end of the month, which will lay the preliminary plans for the conference at Geneva.

**DELEGATES TO ATTEND**

Lord Inverforth and Sir John Forgan represent Britain. Alberto Pirani comes from Italy. Mr. Geyser and Eugene Sander will appear for France, and Carl Meisner is to be present for Germany. Other delegates are also due in a few days.

The financial committee of the League of Nations will meet on Thursday in London to discuss the prospect of making an international loan to Austria.

**CLUB HOUSE PLANNED**

The provisional directors of the Red Deer Golf and Country Club met on Wednesday evening to plan the preliminary work for the development to be carried out on the Club property this season. Mayor Collison, provisional chairman, Mr. H. Mansell, provisional secretary, and Messrs. W. E. Lord and C. W. Sanders, Ed. M. Smith, R. White, J. R. McCleure and W. A. Moore provisional directors, were present.

The purchase of the Club property, 69 acres of the Gs. Williams homestead, lying in the bend of the river west of the Great West lumber mill, has been completed and title will be secured as soon as possible.

The improvement of the fairways and greens on the course will be commenced as soon as weather conditions permit. Quite an amount of levelling and clearing out of underbrush will be done as well as the making of the greens. Messrs. Gibson and McCleure have charge of these operations.

The erection of a club house, 25x46, with a ton foot veranda around it and a fireplace, kitchen and ladies and gentlemen's locker rooms is contemplated.

When the grounds and club house are fixed up, the Club feel that Red Deer can compare its golfing centres of Central Alberta, as she has already qualified as the curling centre.

The erection of a club house will greatly increase the Club's social facilities, and visits by visiting golfers can be easily arranged. The Club plan to hold some really good tournaments, and the participation of Calgary, Edmonton and other outside golfers is assured.

The meeting was the most enthusiastic one, and all indications point to a splendid year for their Club. Their efforts had fair to put Red Deer in the same class in summer sports as she holds in winter sports at present.

# PROHIBITIONISTS ARE BLIND, SAYS WRITER

To the Editor of The News.

If we believe the Bible is the Word of God, then we believe Jesus made it, and that Jesus made it for the use of men. When Jesus and His disciples arrived at the marriage, they wanted food. There was no wine, and Jesus made wine.

A prohibitionist, writing in the Montreal Witness, said: "If the liquor traffic can be tolerated up by God, Christ and the Bible, then I would consider such a God too immoral to merit the worship of a decent man."

All prohibitionists may not say that, but they must think it; their actions prove that they do. They throw the Bible aside, they are destroying it, and coming to fall and imposing enormous fines for doing just what our Saviour did for making wine. Jesus made wine, it was a miracle, if we make wine, it is a crime. Prohibitionists have wrought the change. They say Christ was wrong, we are right. Everyone is free to put their faith in whom they choose. As the Word of God is the Word of God, it is not for us, and we are making crime of it.

The great cry today is "respect the law." How can we? We can obey it, but we cannot respect it. It is a cruel, hard, unreasonable, unfeeling law, but a sort of a slave driver, but we cannot respect it.

**SEED PRODUCTION IN ALBERTA**

According to Dominion Experimental experience at Lethbridge and Lacombe, Alberta offers splendid opportunities for seed production. In 1916 a hundred bushels of six-rowed barley was imported from the state of Idaho, where it had been grown with improvement for a number of years. Sown on a twenty-acre patch in Southern Alberta, it yielded 75 bushels to the acre, but at Lethbridge and Lacombe the high yields of 100 and 114 bushels respectively were obtained. A well-served United States traveler testifies that in his opinion seed of exceptional quality could be grown in Alberta, including seed wheat, oats, barley, peas, clover, alfalfa, vetch, clover, red clover timothy, bromus grass, western rye, and of many kinds of vegetables.

It is a fact not generally known that for years past purchasers of seed oats from the middle states have made Alberta their buying ground. In the spring of last year seven seed centres for the multiplication and distribution of pure seed were established in Alberta, and have proved satisfactory. In the irrigated districts of Southern Alberta, gratifying success has been achieved in the growing of seed, especially that alfalfa, of which the yield runs fourteen bushels to the acre.

The huge factory of the Thornton Rubber company at Calgary was destroyed by fire on Wednesday with a loss of over \$50,000.

# CANADIAN PEACE-TIME HEROES

The Phoenician had no role to cover in the story of the rescue. The story of the rescue is a thrilling one, and the officers of the "Monteagle" are not devoted to "high lights," dealing only with an outline of the action, and was taken on board the attempt to land the boat.

The wind and sea drove the first vessel, and drifted toward the sinking vessel, and drifted toward the sinking vessel, and drifted toward the sinking vessel.

The "Hsin Tien" was sunk. "Early" in the morning, when the "Monteagle" was just getting busy to carry out the rescue work, the French mail steamer "Amazon" came along, stopped and endeavored to get out to sea to help, but was unable to do so on account of the weather and sea.

"All over the China coast the "Monteagle" and her crew were lauded for the splendid work which they accomplished. The manager of the Societe des Transports Maritimes de Chine, the captain and officers of the lost steamer, tendered official thanks to them and presented them with an address of gratitude. The French consul-general at Shanghai wired his heartfelt thanks to them.

"Mr. G. M. Bosworth, chairman of the Canadian Pacific Steamships Company Limited, wired to Captain E. Beetham, general superintendent at Vancouver, as follows: "In connection with the rescue of the French steamer 'Hsin Tien' by 'Monteagle,' please convey from directors of the company to Captain Beetham, Officers Ferguson and Campbell and to the members of the European and Chinese crew our sincere thanks for their gallant action. Directors are greatly pleased to have such brave men in their employ."

Paramount Picture

### A William De Mille Production

Was She  
Married  
or Not?

Zona Gale's greatest novel and play. Now the screen sensation.

Inside facts of family life! Snatched from our parlors and porches and held where the world may see!  
The story of a woman who thirsted for love and whose nature had always been starved. See what she did to win happiness.

ALSO SENNETT COMEDY

### Safeguard Your Valuables before It Is Too Late
